

Marine equipment & After Sales in Korea

We build them - we service them

Aalborg Industries is the world's leading supplier of marine boilers and inert gas systems. 90 years of experience as engineers and manufacturers of steam boilers and waste heat recovery units materialize in the MISSION™ concept for boilers, burners and control systems in that they are efficient, environmentally safe and have a long service life. We are equally experienced international suppliers of inert gas systems, heat exchangers and thermal fluid systems.

Key account centres in the Aalborg Industries Group carry out service of all equipment supplied by the Group which includes spare parts, service & repair and upgrading.

Aalborg Industries Ltd. in Busan now employs approximately 40 sales, service and design engineers.

Local boiler service

New equipment, service & spares

Aalborg Industries in Busan

Aalborg Industries Ltd. became a private limited company in 2001 after three decades as an Aalborg Boilers / Aalborg Industries representative office in various constellations. The Busan office has its own sales & engineering team for new equipment sales as well as a Global After Sales team.

Engineered in Korea

With back-up from the Technology departments in Denmark, Singapore and the Netherlands, the engineering department in Aalborg Industries, Busan, has the knowledge and capacity to swiftly supply engineering solutions to any inquiry. Aalborg Industries has no licences because we want to maintain full control of the product quality and supply up-to-date solutions to our customers.

Many of the boilers supplied to Korea come from our ISO 9001 certified factory in Qingdao, China, where Aalborg Industries is the full owner of the world's largest marine boiler factory.

Global After Sales in Korea

Aalborg Industries is committed to rendering first class service through our global service network with offices in 14 countries around the world. Aalborg Industries in Busan is a key partner of this network, offering complete service within all our business areas. We have a dedicated Global After Sales team ready to handle your requests for OEM spare parts, service, repairs or rehabilitation of our own or 3rd party equipment. Our service engineers also provide advice and guidance on maintenance and upgrades.
