

Spare parts catalogue

Sourcing of OEM boiler plant spare parts from the Aalborg Industries Group has now been made much easier. An electronic catalogue with full documentation on spare parts for the MISSION™ brand steam boilers is available to make purchases even faster and more reliable.

Electronic spare parts catalogue

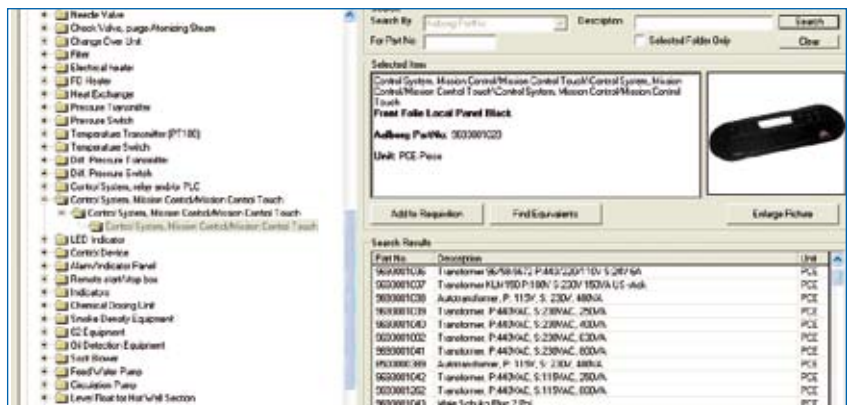

Aalborg Industries strives to fulfill the needs and expectations of our customers and to this end we have developed a spare parts catalogue for our MISSION™ concept steam boilers and accessories such as burners, pumps, valves, control system, etc. Our catalogue is presently available on CD but is expected soon to be made available for download from our website.

Benefits of using the Aalborg Industries spare parts catalogue:

- Easy and accessible sourcing of Aalborg Industries spare parts
- Selected list of our products and spare parts
- Improved data quality
- A simple, user-friendly interface
- An easy way to select products and transfer accurate information

The Aalborg Industries spare parts catalogue is used as a **reference tool**, where you can:

- Browse through the tree menu structure
- Search for key words and part numbers
- Look up detailed specifications such as datasheets
- See digital images of specific products
- Identify Aalborg Industries spare part number for easy reference.

Sourcing for spare parts made easy. Full documentation, images, etc. only a click away.

The catalogue can be used as a companion to the ShipServ ShipLink® requisitioning tool.

The Aalborg Industries' spare parts catalogue was developed together with the maritime e-commerce company ShipServ (for more information, see www.shipserv.com)
